

BARGAINING UPDATE

10/5/2018

We TA on Floating.

ARTICLE
12

Our Bargaining Team brought up SEIU 121RN members' concerns about being floated into units where we've not been trained or lack the necessary competencies. Proposals and counterproposals on this issue were passed back and forth for months.

RNs will now be able to request an orientation of up to four hours if we're floated to any

unit where we've not worked in the previous 12 months. We pushed hard on this to ensure we ended up with an agreement that will protect patients and RN licenses.

We also continue to have a lot of discussion about our Clinical Ladder. Stay tuned...

Our next bargaining date: **October 10th**
