

Members Authorize Strike with 93% Support!

From January 5 through January 7, RNs overwhelmingly authorized our Bargaining Team to call an Unfair Labor Practice (ULP) strike — with approval by 93% of those who voted!. Management has committed numerous ULPs, including:

- Changes to our working conditions without proper notification or bargaining over the changes.
- Violating Title 22 provisions.
- Not consistently providing relief so we can take our breaks and meal periods.

**Wear your Union buttons for a strong contract
and to stop unilateral changes to our working conditions!**

Our **Bargaining Team**, from left to right:
Cindy Triola, ICU; Joyce Powell, ED; Tracy Andrews, 4N;
Kevin Mac Vane, Short Stay; and Brenda Blanco, 5N.

We will call for a strike if contract negotiations fail to improve and management does not rescind its unilaterally imposed changes. Your commitment to strike, once set, will send a message of unity and resolve.

**If you have questions, contact a member
of our Bargaining Team or:**

SEIU 121RN Union Representative Tony Popovic
