

**LEARN ABOUT HOW CALIFORNIA'S AEROSOL TRANSMISSIBLE DISEASE (ATD) STANDARD
CONTINUES TO PROTECT US FROM THE NOVEL COVID-19 VIRUS
EVEN WHILE EVERYTHING ELSE CHANGES DAILY**

This one-of-its-kind enforceable safety regulation has been in affect all along

The Cal/OSHA Aerosol Transmissible Disease (ATD) Standard is an enforceable regulation that applies in healthcare, corrections, and other high-risk environments.

This class will discuss the scientific basis for the ATD Standard and highlight specific provisions of the regulation—including infection control planning; use of masks, respirators, and other personal protective equipment; airborne infection isolation; post exposure measures, filing Cal/OSHA complaints and medical screening procedures.

The course will emphasize how nurses and healthcare workers can use these regulations to secure protections against COVID-19 and other infectious disease hazards in their facilities.

**This is our repeated course and is open to all SEIU members and invited guests.
The course is free, but registration is required to reserve your space.
2 CEUs are available to all licensed nurses (RN/LVN).**

We are offering two dates: **Saturdays July 18 & 8/1, from 10:00am to 12:30pm OR 1:30 to 4:00pm via Zoom.**

Email hughesk@seiunaca.org, indicate which one of the 4 time slots you'd like to attend, provide your personal email & cell; also, your RN/LVN license number if applicable.

A Zoom invite with class materials will be sent to you.
